Published Daily, Except Sundays, by Wm. Glasman.

## TWO STRANGE DISEASES.

The government has issued a bulletin on infantile paralysis and pellagra, giving the number of deaths from each last year. The bulletin states that no statistical segregation of infantile paralysis as a cause of death has been made heretofore, but the increasing importance of the disease and its wide prevalence throughout the country in the form of local epidemics render a statement of the mortality important. Like meningitis, which it somewhat resembles, it is difficult to obtain an exact separation of the deaths from the specific infectious diseases, acute anterior poliomyelitis, from other infections of similar nature. Acute anterior poliomyelitis is described by the bulletin as an acute infectious disease chiefly affecting children in the first five years of life, and while not infrequently fatal is of even more serious consequence as the cause of more or less permanent paralysis and atrophy of muscles. Numerous outbreaks have occurred in this country, the most important of which were those in Vermont, in 1894, and in New York and Connecticut, in 1907. The 569 deaths compiled for the registration area for 1909 were widely distributed, and indicate endemic or epidemic prevalence in many parts of the country.

There were 569 deaths from infantile paralysis and 116 from pellagra. Utah is credited with 3 deaths from infantile paralysis. These are diseases which are not well understood and do not yield readily to treatment. Because they are new and strange diseases, they have awakened great interest and in some sections much alarm has been caused.

## NEW RAILROAD LINES.

The Oregon Short Line Railroad company has planned to increase its capital stock from \$27,500,000 to \$100,000,000. That amount of stock placed in the treasury should assure the construction of the lines which are planned to cover the intermountain country. When the new stock will be used is problematical, but no doubt there will be little done this year owing to many uncertainties in railroad affairs, including the radical changes proposed and ordered in railroad rates. But late next year or after the presidential election of 1912, an active campaign of railroad building by the Oregon Short Line may be looked for.

It is possible that the Oregon Short Line officials contemplate building a road across southern Oregon and that the line will be constructed without delay, owing to the encroachments threatened by the Hill roads. Judge Lovett and party went over the Oregon route this summer and they are said to have sanctioned the new construction.

## REGULARS ARE PROFESSIONALS.

Without organization or some one to direct their efforts, the insurgents of Utah must display overwhelming strength to defeat the regulars in state convention in Ogden. The leaders of the regulars are well organized and they have representatives in every precinct in the state who are instructed to win their way to the state convention. Without a challenge from any one, these representatives of the regulars can march unimpeded to the object of their ambition, there to deliver "the goods." It is a sad commentary on our form of government that the professional politicians and the servants of the professionals are allowed to run our primaries without opposition.

We suggest that the regulars, as they call themselves, be known as professionals.

## OGDEN AS A SEED CENTER.

A new industry in this region is the raising of seed peas for the eastern market. Coulter & Adams are harvesting their second year's crop with most encouraging results, and Bert Adams, the local representative of the firm is of the opinion that the industry is a demonstrated success.

Near Morgan and north of here, 350 acres of seed peas have been harvested, returning to the farmers who contracted with the seed men an average of \$60 an acre.

Raising seed is said to be no more expensive or difficult than cultivating a wheat field, except that an expert must oversee the work of roguing and this expert is hired by the seed house.

This year there is a partial failure of the seed pea crop in Michigan and Wisconsin, and every year the eastern states meet with heavy losses from insect attacks or adverse climatic conditions. But this part of Utah seemingly is adapted in soil and climate to pea culture, and this is especially true of Morgan and that neighborhood and Ogden Valley.

Coulter & Adams are endeavoring to have the farmers of Ogden Valley attempt the raising of peas as the altitude should prove favorable to a thrifty crop and, consequently, a most profitable crop.

## FURNISHED ROOMS WANTED.

Ogden is rapidly filling up with visitors to the Four-State Fair, the International Sheep Show, the Intermountain Good Roads' convention and the Fall racing meet. Already rooms are scarce; the hotels have practically let every available room and the rooming houses are being taxed. The local reception committee needs more rooms.

If you have a spare room or two, call up on the telephone Dan Ensign at the Arlington hotel and advise him. He will keep your name on the list and make assignments later.

It is absolutely necessary that the people of Ogden render assistance to the committee, so as to have plenty of rooms in order that all visitors can be properly cared for.

During the Irrigation Congress, the National Wool-Growers' convention and numerous other conventions held in this city, the people responded liberally to the call for rooms, and as a result the committee had more rooms than they needed.

If the people of Ogden will bear this in mind and let the committee know about the spare rooms, they will be doing a favor to Ogden which may bring reward in that visitors will know that when they come to Ogden they will be sure to find ample accommodations and will be well cared for.

If you have a spare room or two at your home call up Dan Ensign as soon as possible and let him know. DO IT NOW.

## THE OVERPRODUCTION OF LITERARY GENIUS.

A sad case was recently reported from New York of a young girl who, with the literary bee in her bonnet, had come there thinking to make an easy living with her pen (or, more likely, typewriter), but who, becoming utterly discouraged, sought to take her own life.

The sad part of such cases, however, is not so much the sacrifice of the individual victim as it is the gross ignorance which can permit unprotected girls to go off to the big city on any such fool's errand. Parents are under bounden obligation to know some things, and one of these things is that there is absolutely no chance, sensibly speaking, for a girl to make a success in any such way.

The art, literary, musical and dramatic fields are cram-jammed

full and overflowing with talent and the few spectacular successes that you hear of fall far short of paying for the dismal and heart-breaking failures and disillusionments. Parents, teachers, ministers, editors and others who have influence over young people should do their utmost to nip in the bud the illusory "ambition to do something in the world," which is one of the bane of our ill-organized society.

What the world wants today, as all advanced educators and sociologists agree is practical men and women. There is no demand for literary and other fancy accomplishments, nor do such accomplishments inspire any awe or respect or sympathy in the world.

More's the pity, you may say, but we tell the cruel truth. There are in every city hundreds of young women especially who are victims of the literary germ; they can't make enough money with their writing to pay their board.

If, on the other hand, they had training in some practical pursuit and would devote the same amount of ability and ambition to it, they would fill a real demand, and would be properly recompensed. They would then be useful members of society, returning to it at least as much as they took from it, and would see life in its true perspective. There would be fewer blasted careers, ruined hopes and cruel disillusionments—and a healthier interest in this world and the world to come would result.

## JUST FOR FUN

### Generous.

He was an observant little chap, with a knack of storing knowledge wonderful in one so young. But he rather spoiled himself the other day. "Pa," he said, "I hear Uncle Joe has only three days more."

"The little boy sighed. 'The last three days,' he said, 'they give them everything to eat that they ask for, don't they, pa?'"—London Tit-Bits.

### Personal Remotement.

"What makes Mrs. Flimflit so determined to become a voter?" "She says it's time to put a stop to the shameful abuses of authority now in evidence." "But she used to be indifferent to such matters." "Yes, but she's thoroughly aroused. You see a policeman came around and told her she would have to put a muzzle on her dog."—Washington Star.

### Could Remember One.

Professor McGoozle—it is astonishing how little the young people of the present day know of mathematics. For example, Miss Tartum—or you, Mr. Sparks—do you remember what the rule of three is?

Miss Tartum—O, yes, professor; I haven't forgotten that, I think. "Three is a crowd." That right?—Chicago Tribune.

### The Ready Rester.

"These automobiles have given us a good deal of setback on the farm this year," said Mrs. Cogntosel. "In what way?" "Every time Hiram hears one of them honks he thinks it's the dinner horn and quits work."—Washington Star.

### Similarity.

Stubbs—What's Jenks making all that fuss about? Penn—His wife gave him a roll-top desk for a birthday present and he says it reminds him of her. Stubbs—In what way? Penn—It won't shut up.—Chicago News.

### Didn't Like to Say.

"Now, professor, you have heard my daughter sing, tell me what I ought to do with her?" "Sir, if I told you what you ought to do with her the law would hold me as an accessory."—Houston Post.

Reporter—You say, Miss Brett, your ex-husband once aimed a blow at you. Did—did he land? Charming Young Actress—Yes, sir, he landed in the divorce court.—Chicago Tribune.

### Regrets.

Mrs. Guzzler—Aren't you ashamed to come home in this condition? Mr. Guzzler—Mortified to death, my dear. I find that my capacity isn't what it used to be.—Philadelphia Record.

### Physical Risks.

The hammock now has lost its charm. The bump it gives does little harm. If real thrills you seek to gain, You tumble from an aeroplane. —Washington Star.

### Locating Them.

Hank Stubbs—Abe Crockett started up his club mill last week. "Bitch Miller—I wondered where all the grocery store crowd was lately."—Boston Herald.

## TWO MORE BUMBS ARE EXPLODED

Chicago, Sept. 20.—Numbers 37 and 38, bombs, in the war between the two factions of gamblers, were exploded last night in two places five miles apart within 45 minutes of each other. In neither case was any one injured, though the damage to buildings was considerable.

The first projectile ripped a wide opening directly above the entrance

## For Bald Heads

A Treatment That Costs Nothing if it Fails

We want you to try three large bottles of Rexall "93" Hair Tonic on our personal guarantee that the trial will not cost you a penny if it does not give you absolute satisfaction. That's proof of our faith in this remedy, and it should indisputably demonstrate that we know what we are talking about when we say that Rexall "93" Hair Tonic will grow hair on bald heads, except where baldness has been of such long duration that the roots of the hair are entirely dead, the follicles closed and grown over, and the scalp is glazed.

Remember, we are basing our statements upon what has already been accomplished by the use of Rexall "93" Hair Tonic, and we have the right to assume that what it has done for thousands of others it will do for you. In any event you cannot lose anything by giving it a trial on our liberal guarantee. Two sizes, 50c and \$1.00. Remember, you can obtain Rexall Remedies in this community only at our store—The Rexall Store. T. H. Carr, Twenty-fifth and Grant.

to the Freiburg dance hall in Twenty-second street, and the second explosive tore a great opening in the roof of the Woodlawn cafe, Sixty-third street and Cottage Grove avenue, driving frightened men and women to the streets in a panic. It is believed the second bomb was intended for an alleged pool room adjoining the Woodlawn cafe.

For three years the police have been in a turmoil over mysterious explosions which have caused serious injury to a number of persons and thousands of dollars' damage to property.

The police believe that the bombs have all been thrown by the same man, but so far they have not been able to apprehend him. Detectives who have been working on the case believe that both bombs last night were thrown from the elevated railroad platforms, as both buildings are near the elevated structure.

### AMERICAN LEAGUE.

Cleveland 5, Philadelphia 4.  
CLEVELAND, Ohio, Sept. 19.—Cleveland won from Philadelphia 5 to 4 today, Blanding, the Texas League recruit, outpitching Morgan. LaJole got three hits in three times at bat, each being a hard drive. Score: R. H. E.  
Cleveland.....5 9 1  
Philadelphia.....4 9 2  
Batteries—Blanding and Land; Morgan and Livingston.

Cleveland 1, New York 0.

CHICAGO, Sept. 19.—Chicago tied its season's record for consecutive victories here today, winning its fifth straight game by defeating New York 1 to 0. The sale of Second Baseman French and First Baseman Gandil of Montreal was announced. Score: R. H. E.  
Chicago.....1 3 0  
New York.....0 5 0

Washington 6, Detroit 6.

DETROIT, Sept. 19.—Today's game between Washington and Detroit was called at the end of the eleventh inning on account of darkness, while the score was tied 6 to 6. Washington had 16 men left on bases. Score: R. H. E.  
Washington.....6 11 1  
Detroit.....6 11 4  
Batteries—Gray, Okey, Walker and Henry; Street, Works, Stroud and Casey, Schmidt.

Boston 3, St. Louis 6.  
ST. LOUIS, Sept. 19.—St. Louis defeated Boston in the opening game of the final series today, 6 to 3. Mitch-

ell prevented the visitors from getting a hit after the fourth inning. Score: R. H. E.  
Boston.....3 7 2  
St. Louis.....6 10 0  
Batteries—Wood and Carrigan; Mitchell and Kilmer.

## NEEDFUL KNOWLEDGE.

Ogden People Should Learn to Detect the Approach of Kidney Disease.

The symptoms of kidney trouble are so unmistakable that they leave no ground for doubt. Sick kidneys excrete a thick, cloudy, offensive urine, full of sediment, irregular of passage or attended by a sensation of scalding. The back aches constantly, headaches and dizzy spells may occur and the victim is often weighed down by a feeling of languor and fatigue. Neglect these warning and there is danger of dropsy, Bright's disease, or diabetes. Any one of these symptoms is warning enough to begin treating the kidneys at once. Delay often proves fatal.

You can use no better remedy than Doan's Kidney Pills. Here's Ogden proof.

Mrs. William T. Baker, rear 626 27th St., Ogden, Utah, says: "It gives me pleasure to recommend Doan's Kidney Pills as they have proven to be a good remedy for kidney and bladder troubles. I have taken Doan's Kidney Pills with good results, and other members of my family have used them for weak and lame backs with the same success. Doan's Kidney Pills can be relied upon to bring relief from kidney disorders."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.

## ROUND MOUNTAIN ORE BODIES OPENING WELL

The clean-up for August at the concentrating plant of the Round Mountain Mining company, as indicated Wednesday by a letter to Director Lewis D. Gordon, will reach \$36,000, the best results gained by the management for many months. The management has the advantage of the increased capacity of the mill, and the new or sheeted ore zone in the new workings located about 1500 feet east of the original or No. 1 shaft section.

This sheeted zone, stated Mr. Gordon yesterday, produced \$20,000 of the August total, the ore averaging between \$10 and \$12 gold per ton, which is a much better average than was anticipated by the previous cold-blooded sampling of the management. The old workings are looking especially gratifying at this time. The foot wall country on the seventy-foot level is producing a fine tonnage of \$10 gold ore, and a big tonnage of \$8 ore is being blocked out on the 600 level. The crosscut on the 700 level has encountered three very good veins, all the work at depth placing as much ore in sight and in available form for extraction as at any previous period of the mine's history. The values likewise are holding up splendidly, and the officials are delighted with the present conditions above and below the surface.

## GUARANTEED PILE CURE

BACKED BY YOUR LEADING DRUGGIST.

If you have any kind of piles, get a box of Dr. Leonard's Hem-Roid at BADCON'S PHARMACY, Ogden, Utah, on the money-back plan.

Hem-Roid is made from Dr. Leonard's own prescription—a tablet remedy taken internally and cures thoroughly by removing the internal causes of piles, something that suppositories, ointments or cutting operations will not do.

\$1 for large bottle which lasts 24 days. Dr. Leonard Co., Station B, Buffalo, N. Y. Write for booklet.

## ITALIANS WANT TO KNOW SOME THINGS ABOUT UTAH

The Institute International d'Agricoltura, with headquarters at Rome, Italy, wants information concerning the most important development in agricultural work in Utah, and to procure that information has written to Secretary of State C. S. Tingey, through its president, R. E. Capponi. Information especially desired about methods of acquiring realty and its transfer, marketing and transportation of farm products on land and water, provisions against adulterations of food stuffs; diseases and pests involving the farmer and measures of prevention, kinds, quality and cost of farm implements employed and means for gathering and disseminating agricultural statistics.

The communication will be turned over to State Statistician H. T. Haines to make reply. Inasmuch as it is written in French, the statistician is awaiting it with some speculation.

## SHOULD ELIMINATE OBNOXIOUS WEEDS

Salt Lake, Sept. 20.—Lorenzo Hopla of Mapleton, Utah, has been in Salt Lake City for several days and is working for a law that will free Utah of obnoxious weeds. In an interview with a Tribune representative Monday he said:

"I am endeavoring to have a law passed compelling every farmer and land owner to keep down obnoxious weeds, also to compel the farmers and land owners to keep the water off both public and private roads and to keep their fences up and in proper shape. My idea is to have an officer in each town and precinct, then to have a strict overseer to see that the laws are strictly enforced. This means thousands of dollars to our state, for we are badly in need of these laws. I have been talking with our grain merchants and I find that most of the grain is coming from Idaho in place of having it from Utah. Why can't we raise just as good grain here as in Idaho? Simply because the farmers here are too indolent, too careless and indifferent in regard to their farms."

### How's This!

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Props., Toledo, O. We, the undersigned, have known F. J. Cheney for the last fifteen years, and believe him perfectly honest in all business transactions and financially able to carry out any obligations made by him. We, West & Travis, Wholesale Druggists, Toledo, O.; Walcott, Kier & Mavis, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price, 75c per bottle. Sold by all druggists. Testimonials free. Hall's Family Pills are the best.

## ELEVATOR OPERATOR WANTED

The United States Civil Service Commission announces that an examination for the position of elevator conductor in the custodian service at Ogden, Utah, will be held on October 12, 1910.

In view of the fact that the commission has experienced considerable difficulty in securing a sufficient number of eligibles to meet the needs of the service at Ogden, Utah, all qualified persons are urged to apply for and enter the examination to be held at Ogden on October 12.

Application form 1800 and further information concerning this examination may be obtained from Frank B. Clayton at the Ogden postoffice or from the secretary, Twelfth Civil Service District, at San Francisco, California.

Application blanks must be filed with the District Secretary not later than October 8, 1910.

## NO GRAFTING BY GERMAN POLICE

New York, Sept. 20.—Grafting by the police is unknown in Germany, according to Dr. Paul Nathan, representative of the Liberal party in the Berlin city council. Dr. Nathan is now in New York on his way to attend the international prison congress in Washington next month.

"It is impossible to bribe our police," he said in response to a question. "Officers of the Berlin police force never take money to protect vice. I have never heard of a policeman being prosecuted for grafting. Though their salary is nothing as compared with that given patrolmen in New York, it is sufficient for them to live comfortably and they are honest. Perhaps it is all a matter of habit. Our policemen, then, are honest by habit. Perhaps some of them in your country acquire other habits. 'Grafting' is a German word, you mean? It would not be allowed in Germany. If persons play the police interfere. The punishment meted out makes them so fearful that they never engage in the practice again."

## BODY TO BE SENT EAST; IT IS FULLY IDENTIFIED

Provo, Sept. 19.—Sheriff George Judd has received a telegram from Fred Langen, 3137 West Forty-third street, Cleveland, Ohio, brother of the unfortunate man who was killed near Soldier Summit Friday night, requesting that the body be prepared and shipped to Ohio at once. In the clothing of the dead man the officers found a book, very badly mutilated, which contained the name of William Langen, \$60 in cash and a receipt for dues in the International Brewery Workers' union signed by S. M. Moore of Ogden. Mr. Moore was communicated with, but he knows nothing of the man except that he called and paid his dues to him. When Deputy Sheriff Al Hales and Undertaker O. H. Berg brought the mangled body of Langen to Provo Saturday night, a part of the left leg and the entire foot were missing. These have since been recovered and are now in the hands of the undertakers. The foot, still in the shoe, was severed from the body and in some manner became fastened to the trucks of the car and was carried 150 miles from where the body was found. The body will be sent to Ohio as soon as it can be prepared and arrangements made for its transportation.

## FLOOD AT EPHRAIM COVERED EVERY STREET

Ephraim, Sept. 20.—Yesterday afternoon Ephraim was again visited by a large flood, one of the largest that has visited this section of the country during the summer. It reached town at about 4 p. m. and covered nearly every street in the town with mud and water. Considerable damage was done to the business places along Main street as several of the basements were filled with water which ruined the goods that were stored there. Those who suffered the heaviest losses are Edgar Thorpe, Willard Johnson, J. P. Hanson and A. C. Bon. All of which are business places. Miss Pearl Hanson, in trying to get some of the goods out of the basement, was nearly drowned, and if help had not been on hand she would have been drowned as the large rock wall caved in and in an instant the entire cellar was filled.

## PLAYERS ARE RELEASED BY THE CHICAGO NATIONALS

Chicago, Sept. 20.—President Murphy of the Chicago Nationals yesterday turned over half a dozen players to the Louisville club of the American association. The players were: Outfielder Kaiser, who played with the Paris (Ky.) team; Pitcher Harter, who spent the season with the Portsmouth (O.) team; Shortstop Volx, who played with the Lexington (Ky.) club; Outfielder Wolf, who was secured from the Lincoln (Ill.) team; Pitcher Wolterton, drafted from the Burlington (Ia.) club; Pitcher Gelst, who was with the team in the spring and who was sent to the Lincoln (Neb.) team and recalled. The six players will not report to Louisville until next season.

President Murphy announced that he released the men to get within the 35-player limit.

## DR. BAUMGARTEN DEAD

St. Louis, Sept. 20.—Dr. Gustav Baumgarten, pioneer St. Louis physician, author of a number of medical works and a war veteran, died last night at his residence here after a long illness. He was in his 74th year.

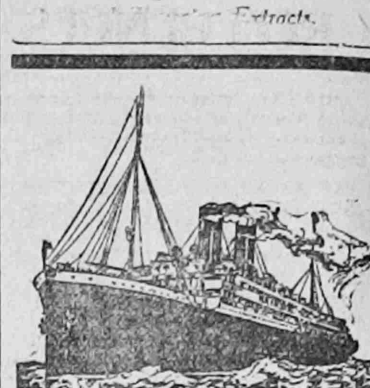

## OLDEST LIGHTHOUSE KEEPER DEAD

Washington, Sept. 20.—William Welch, the oldest lighthouse keeper in the United States, is dead. He tended the Van Wicks Point beacon near Albany, N. Y., continuously since 1858. He was 93 years old. The department of commerce and labor has appointed his son, who is 66 years old to take his place.
